

13-3-18: ACQUISITION OF PERMITS AND LICENSES:

Grantee, promptly following the effective date hereof, shall make all necessary applications to all appropriate entities for authority with respect to the distribution system and shall proceed with due diligence to acquire all necessary licenses and authorizations for the construction of the distribution system and the furnishing of CATV service. Grantee shall, in good faith, following the receipt of all necessary rights from public and private parties and all necessary licenses and authorizations, complete the execution of all contracts for construction of the distribution system and construction shall be completed with reasonable speed. (1995 Code § 28-3-18)
