

13-4-3: GRANT OF EASEMENTS:

The grantee is hereby granted all necessary, desirable and convenient easements to construct, reconstruct, operate and maintain its telephone facilities, including, but not by way of limitation, its poles, wire and conduits over, across and under all public roads, streets and other city-owned lands within this city; provided, nevertheless, that the location of all such facilities shall be approved by the building inspector or such other officer or inspector as the city may designate for that purpose. (1995 Code § 28-4-3)
