

10-5A-4: WIDTH REQUIREMENTS:

The minimum width of any building site shall be seventy feet (70'), plus five feet (5') additional for each additional dwelling unit, measured at a distance of thirty feet (30') back from the front easement line. For uses other than dwellings, there shall be no width requirements. (Ord. 6-18-81A, 6-18-1981; amd. 2003 Code)
