

### **13-3-22: SUBDIVISION DEVELOPMENT:**

For all residential structures hereinafter erected which are to be served by underground utilities, the developer of the subdivision or development may acquire CATV service for this development under the following conditions, but otherwise the grantee shall not be obligated to construct CATV system in such new development:

- A. Developer shall perform all trenching and backfilling necessary for the provision of cable television service, including furnishing of any imported backfill material required; and
- B. Will furnish and install for the grantee any necessary distribution conduit and substructures, including pedestals, required in accordance with the grantee plans and specifications; and
- C. In addition to providing plans and specifications to the developer, the grantee shall inspect the facilities required hereunder, and certify to the city prior to final approval of the subdivision or development that the facilities required herein are properly installed. The city shall have the right to review and require its approval of the maps and specifications provided by the grantee. (1995 Code § 28-3-22)
