Dear Frank Anderson

Thanks for the support of TOOLIOM products. 112-3236568-9241059

If you have a problem with the MIG welder (• B0CP4VV4KK) that do not arc when flux MIG welding.

Don't rush to return it yet.

1) Please check whether the connection is correct, the work clamp need to be connected to the positive pole (+) of the machine.

2) Press and hold the gun switch to keep the machine continuously feeding the wire and start the arc when contacting the workpiece.
